

Tax Minimisation and Competitive Finance Quotes Resulted in big Savings!

Gavin Burey – Livestock & Grain Farmer, Proprietor, Maree Downs

CondonTreasure assisted me to minimise tax payments and offered competitive finances quotes for my business which saved me money.

Their assistance with tax minimisation meant I was doing things correctly without running the risk of creating problems with the taxation department. Plus their competitive finance quotes meant I could purchase the sheds, silos and machinery I required resulting in major savings in repayments.

As a second-generation primary producer and grain farmer on a 10,000-acre property 55 kilometres west of Roma, I need an accountancy firm that is first class and cares about my business.

And with CondonTreasure's tax and finance advice they do care and it all resulted in extra money in my pocket.

I began using CondonTreasure in 2004 as I was looking for a more professional team to handle my business. I had heard good reports about them so I decided to move across and have found their services very satisfactory.

Mark Treasure always gets back to you promptly and always achieves a satisfactory outcome. Mark is extremely easy to talk to taking extra care to explain things in detail without complicating matters with technical jargon.

Before I make any financial decisions I check with him. His advice is important to me and I feel comfortable with him. Mark always works hand in hand with my bank manager for the best possible outcome.

You just can't fault CondonTreasure. Even when you visit their offices, there is an overall feeling of excellence within the company.

They are very family friendly, offering coffee and tea on arrival and even have a kid's room if you have to take your children with you to an appointment.

I see the benefit in their other services and may use some of these in the future as the need arises.

So, no matter what business you own, you can trust CondonTreasure with any advice they give you. They assist you by going through your books to see where your business is placed and then offer advice that will benefit you.
