

Highly Professional, helpful & Quick to Respond

Sharon Seawright, Director, Gregory Fabrications

I have used CondonTreasure's services for the past 10 years and have found them to be highly professional, helpful and quick to respond to enquiries.

When we moved our business from Roma to Clermont in 2006, at the time I thought I would change accountancy organisations. However, CondonTreasure were so great to deal with, despite the 500 kilometre distance to their office, we decided to stay with them.

Our accountant, Tegan Duff, assists us with the majority of our accountancy work. If there's something she needs to check on, she doesn't pretend to know, she finds the answer, and then gets back to us as soon as possible. The service is excellent.

Another reason we decided to stay with CondonTreasure was the extra services that have been added to their business solutions. We recently attended their business camp which was awesome. We have started to implement some of the strategies we learnt and have already seen a return on our investment.

Suggestions at the camp were to have a fully functional telephone system so we installed a new one and have a receptionist who answers the phone now. We have employed other staff as we now aim to work on our business and not in it. We have begun delegating responsibilities to others. These new strategies are working well.

After we decided to expand our business, we made an appointment to see CondonTreasure at their office. They helped us to understand how to manage our finances and also protect our assets.

We are so impressed by the many services they offer that we are about to commence using their payroll compliance services in Rockhampton.

I would recommend them to anyone who is looking for an accountancy organisation that does more than just 'crunch' numbers. They can also show business owners how to manage their business successfully.

I would not even consider changing from CondonTreasure to another firm. They know our history, are reliable, friendly and always provide solutions to our business challenges.
